

How to best evaluate and monitor success of your strategy

Education Elements Webinar

March 30, 2021

Share your name, district,
and role

What's one word you
would use to describe
your district's strategic
plan?

The image shows the bottom toolbar of a Zoom meeting window. From left to right, the icons are: Join Audio (headphones), Stop Video (video camera), Invite (person with plus), Manage Participants (group of people), Chat (speech bubbles), and Record (microphone). A large yellow arrow points from the bottom center towards the Chat icon. To the right of the toolbar is a chat window with a yellow border and a text input field labeled "Type message here...".

Join Audio Stop Video Invite Manage Participants Chat Record End Meeting Type message here...

Culture

Our Strategic Planning Approach

What has been true

Create **then** Invest

What we want to be true

Invest **and** Create

Responsive Planning

is developing a plan that prioritizes the process over the product in order to sustain, adapt, and pivot.

Education Elements believes when

Many perspectives are **CONSULTED** and **INCLUDED** then a plan is developed **WITH** and **NOT FOR** the community

Stakeholders are engaged in **FEEDBACK AND DESIGN** then there is **HIGH BUY-IN** and **LOW FRICTION**

Teams prioritize **SPRINTS** and plan to **PIVOT** then they are **RESPONSIVE**

Communication is **CLEAR** and **CONSTANT** then stakeholders **INTEGRATE THEIR BELIEFS**

You organization will transform...

Responsive Classrooms

Responsive Leaders

Responsive Teams

Responsive Organizations

Your procedures and systems will be **sturdy yet adaptable.**

Your teams will be **agile and aligned.**

Your leaders will be **resilient and innovative.**

Your classroom will **respond to the strengths and needs** of your students.

Our goals for today

1. Consider the role of data in strategic planning
2. Identify ways data can make current strategic initiatives more responsive
3. Highlight examples of best practices

Data: Traditional v. Responsive Strategic Planning

Traditional Strategic Planning

Data are used as a summative measure to tell us whether or not we met our goals.

Responsive Strategic Planning

Data are used as a formative measure to (1) help us understand the extent to which we are making consistent progress towards our goals and (2) identify needed pivot points

The role of data in strategic planning isn't just to monitor end-goal success, it's to help us continue to refine our approach.

Traditional v. Responsive Strategic Planning

A *Theory of Action* is a *logical chain of reasoning* explaining how a set of practices will produce results that will lead to desired outcomes.

Initiatives in
Strategic Plan

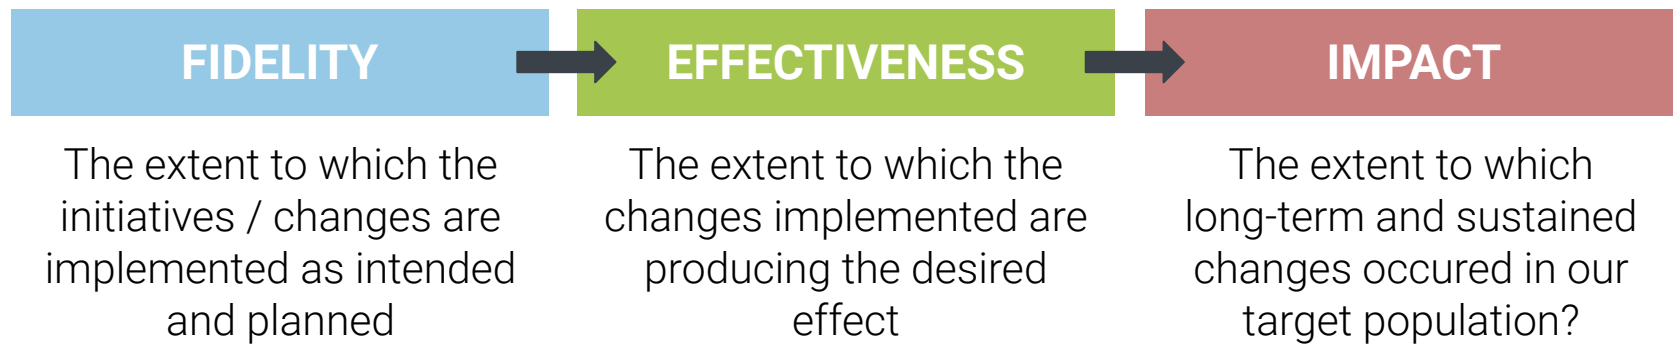

Student Impact

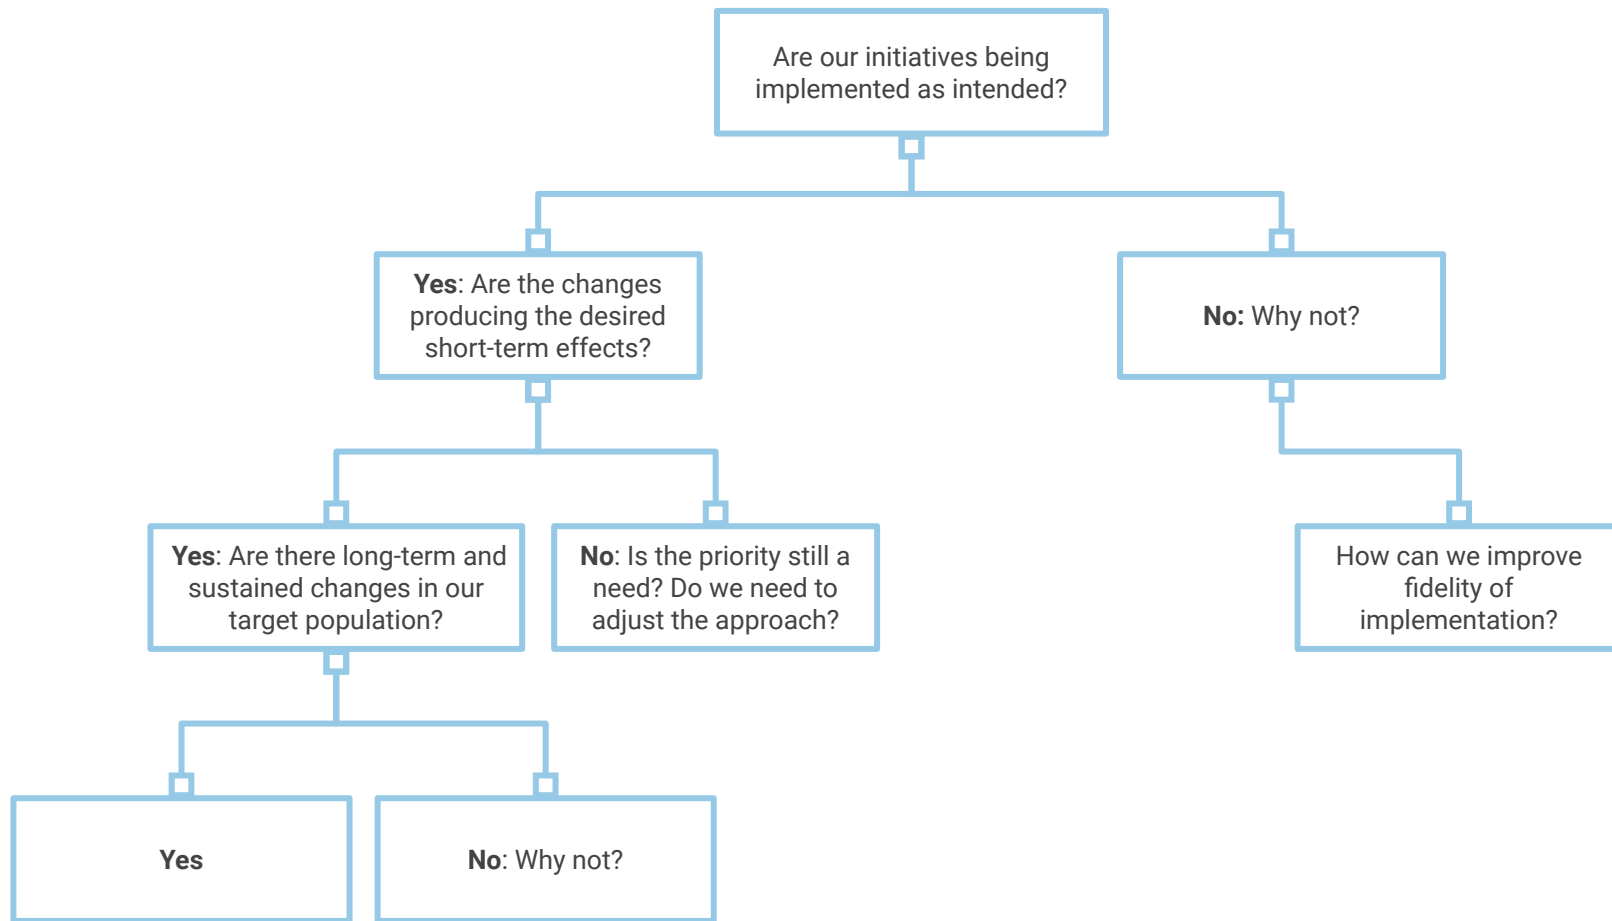

Staff Impact

Community Impact

Why?

We build a theory of action so that organizations can build confidence that the changes they are seeing are actually **attributable** to the program or change they are implementing (causal connection).

When you develop your plan, include indicators of progress in addition to indicators of success.

A Theory of Action with a Responsive Twist

<i>These programs...</i>	<i>Will produce these results...</i>	<i>Which will lead to these outcomes.</i>
<ul style="list-style-type: none">● Getting Miles the information about daily activities, weather, and schedule will...	<ul style="list-style-type: none">● Enable Miles to get himself ready in the morning 5 days each week	<ul style="list-style-type: none">● For Miles: he will be more independent● For his parents: our time with him will be better quality● For our household: mornings will be less chaotic

A Theory of Action with a Responsive Twist

HOW

EXAMPLE

<i>These programs...</i>	<i>Will produce these results...</i>	<i>Which will lead to these outcomes.</i>
<ul style="list-style-type: none"> • [describe the activities in your strategic initiative/plan] 	<ul style="list-style-type: none"> • [Describe a measure of fidelity of implementation or effectiveness you can monitor with regular cadence] 	<ul style="list-style-type: none"> • For schools • For administrators • For teachers • For students • For our community
Stronger onboarding experiences for new teachers	Higher satisfaction rates among teachers in their first year	Retain new teachers to our districts in the long-term

Prioritize time for teams to talk about data

Pivot with local conditions

So What does this all mean...what is the impact?

Opening As Planned Would Yield...

Major Disruption:

- Quality and continuity of instruction
- State & CDC guidance will continuously close our buildings (This week 15 school outbreaks vs. the rest of the year a total of 36!)
- Staffing Issues
 - Quarantining
 - Hiring/Subs

Pivot our plan to meet our needs and priorities

	INITIATIVE NAME	Planned 2020-2021	Actual 2020-2021
Wellness	Staff Self-Care + Wellness	○ Maintaining	○ Maintaining

○ Maintaining

Work hard at creating psychological safety within your teams

“Psychological safety is a belief that one will not be punished or humiliated for speaking up with ideas, questions, concerns, or mistakes.”

-Amy Edmondson

1. Frame the work as a **learning problem**

“We've never been here before; we can't know what will happen; we've got to have everybody's brains and voices in the game.”

2. **Acknowledge** your own fallibility

“I may miss something, I need to hear from you.”

3. **Model curiosity**

“Every time we withhold, we rob ourselves and our colleagues of small moments of learning.”

Include opportunities to collect ongoing feedback
