

Creating Micro-Systems for Equitable Teacher Hiring

December 16, 2020

- Name
- Your role in our education landscape
- *The role I have in hiring is/was...*

For example: *“My name is Crystal, my role is to serve as a partner for districts across the country seeking to bridging gaps in the learning experience. The role I have in hiring was creating a process to source & hire 100+ teacher residents*

The image shows a Zoom meeting interface. On the left, a slide displays three bullet points: 'Name', 'Your role in our education landscape', and 'The role I have in hiring is/was...'. Below the slide is an example text: 'For example: "My name is Crystal, my role is to serve as a partner for districts across the country seeking to bridging gaps in the learning experience. The role I have in hiring was creating a process to source & hire 100+ teacher residents'. On the right, a chat window is open, showing a 'Chat' header and a text input field with the placeholder 'Type message here...'. The Zoom control bar at the bottom includes icons for 'Join Audio', 'Stop Video', 'Invite', 'Manage Participants', 'Chat', and 'Record', along with a red 'End Meeting' button. A large yellow arrow points from the bottom center towards the 'Chat' icon.

Goals for our time together today

Hear and reflect
on the five
components of
equitable
teacher hiring
systems

Spark ways to
CONNECT
around potential
areas of focus
for teacher
hiring

Share
recommended
starting points
to start
addressing
micro changes
in hiring

Hi! We are Education Elements

WE ARE AN EDUCATION CONSULTANCY, THAT HELPS TRANSFORM SCHOOLS AND DISTRICTS

Educational Equity

WHAT IS EDUCATIONAL EQUITY?

Educational Equity is the recognition that the barriers that marginalized students face are due to deliberate actions and biases, and therefore requires us to dedicate a greater amount of resources to remove them.

The SEEM User Journey

STEP 0: System Inventory

Identify how power and privilege impacts decisions

**YOU
ARE
HERE**

STEP 1: Connect

Unpack the challenge by understanding the experience by those most deeply impacted

STEP 2: Include

Include and elevate the voices of stakeholders at the margins

STEP 3: Create

Design prototypes that create equitable outcomes for ALL students

STEP 4: Action

Implementation of redesigned system and/or equity plan

Provides the Mirror

... and the Magnifying
Glass

Top Question:
**How might we attract and hire more
diverse talents to reflect our student
population?**

An iceberg is shown floating in a blue ocean. The top part of the iceberg is white and above the water line. The bottom part is submerged and colored a light blue. A horizontal line separates the two parts, labeled "Engagement Line".

WHAT WE SEE, FEEL, HEAR

Engagement Line

**WHAT *SOME* MAY SEE, FEEL, HEAR
BUT NOT THE COLLECTIVE**

Overt

(Socially Unacceptable)

Tip of the Iceberg

EQUITABLE TEACHER HIRING

Within Education

Racial Slurs
 Racial Profiling
 Hate Speech
 Racists Jokes
 Enrollment Discrimination
 Racial Bullying

Covert

(Socially Acceptable)
 Passive Acceptance- Too Hard

No critical pedagogy
 Gap in student achievement based on race, wealth, gender, etc

Perceiving Black and Brown boys as threatening

Deficit labels for students
 Token one-off "weeks" or activities

Student of color disciplined more harshly

Race demographics of lowest performing schools

"Other people's children" (delpit) vs authentic caring relationships

Not understand the cultural strengths of POC
 Omission of history from curriculum

Under-resourcing of POC-driven options

Accusation of separatism
 Allowing racists jokes to go unchallenged

No challenge to White definitions and structures

Claiming neutrality

Denial of racism
 "Culturally responsive as end point"

Equity as the holy grail

Notion of mainstream

Racial Microaggressions

Cultural Appropriation

Eurocentric context/ context

Parent-blaming

Assimilationist policies and practices

Academic hegemony

Doing nothing is acceptable default

Poverty
 Subject hierarchy

We are all one people

Timetabling

Promotion discrimination

Hiring discrimination

Myth of Meritocracy

Savor Complex

Negative Stereotyping

White driven notion of success

White Fragility (DiAngelo)

Blinked focus on literacy/ numeracy

Post-racial

Low Expectations

Inclusion that is no different from assimilation

70% White teaching force

Fear of white parent or wealthy parent backlash

Assessment against white middle class norms

No authentic consultation with POC community

Low Expectations

Inclusion that is no different from assimilation

70% White teaching force

Fear of white parent or wealthy parent backlash

Assessment against white middle class norms

No authentic consultation with POC community

Deficit thinking

Mispronunciation of names

Blaming children for poor results

Internalized acceptance of low outcomes

inequitable suspensions, exclusions and etc

Pedagogy of Poverty (Lieberman)

A graphic of an iceberg floating in water. The top part of the iceberg is white and above the water line, while the bottom part is a light blue color and below the water line. The text is centered over the water part of the iceberg.

**EVERYTHING THAT DRIVES THE
SYSTEM
(CONDITIONS = INVISIBLE)**

Have we been attempting to resculpt the iceberg as a way to address inequities?

Have we been attempting to go around the iceberg as a way to address inequities?

Have we been attempting to melt the iceberg by changing conditions as a way to address inequities?

Challenge: Equity support ends with theory and harder to take into practice because of 1) skills gap 2) financial and long-term commitment and 3) jumping to action too quickly (misalignment of action)

Challenge: Audits are largely self-reflective (susceptible to a high degree of bias and awareness gaps), therefore only reveal surface level needs

Challenge: Equity work takes longer to show impact therefore, people rush to create solutions that don't show actual changes or discount the unmeasurable impact

Challenge: Outcomes are never the same and largely dependent not just on the system but the degree of awareness and readiness of leaders within the system

Diversity as a Means Towards Equity

“**Diversity** is a fact, **inclusion** is a strategy, **belonging** is a measure, and **equity** is the goal.”

-Dereca Blackmon

1

Marketing

*How do you communicate
& demonstrate **your**
commitment to diverse
communities in your
current avenues of
promotion?*

What It Is Not

Stock photos of diverse communities

Empty statements without systemic changes & ongoing initiatives

Legal statement about your diversity commitment

What It Is

Authentic representation of your engagement with diverse communities

Communicating any and all intentional practices, initiatives and supports

Genuine and personal messaging that speaks to your commitment to supporting diverse members of the community

Website

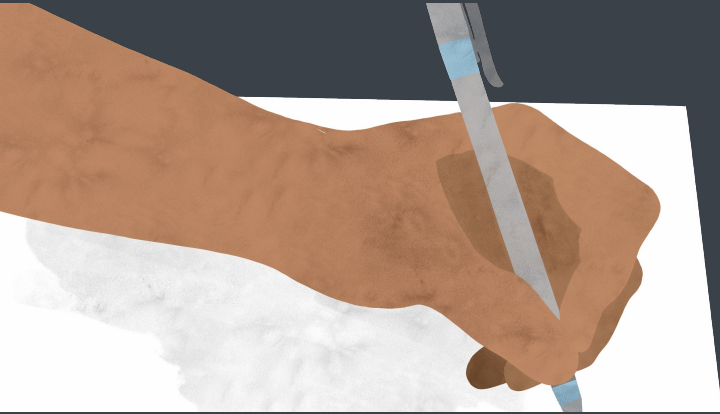

Social Media

Boards

2 Intake

What data insights do you have into your approach to sourcing and interviewing candidates

What It Is Not

Viewing HBCUs as the sole source and answer

Using generalized data to tell the journey of talents of color through your intake process

Wait for talents to come mentality

What It Is

Wide enough reach: ensuring your source of talents are not skewed based on referrals, time of year, etc.

Creating an intake process that celebrates cultural strengths, emphasizes inclusion, creates connections, and balances urgency

Examine time, people, process, policies, product

.....
**Specific
Data**

.....
**Unchecked
Structure**

.....
Communities

3 Process

What is your approach to creating a hiring process that promotes diversity, creates inclusion, and opportunities for potential equitable recruitment of talents?

What It Is Not

Solely having rubrics and anti-bias trainings

Allowing “fit” to be discussed without data and clear metrics

Process that is designed for all and used for the underrepresented

What It Is

Reflecting and designing changes to the duration and touchpoints

Examining the notion of what it means to be a successful staff member. Are those norms promoting assimilation?

A process that checks and rejects all forms of bias and assumptions. Elevates blindspots of the designers

Policies

referral process
or job description

Practices

Interview Debrief Process

People

Selection of interviewers

4 Financial

What are the **monetary inputs** of the district to attract talent, **cost to the talent** for accepting a job, financial **barriers preventing talents from accepting a job**?

What It Is Not

“Not my problem”
mentality or “can’t change
this”

Valuing quantity vs quality
for impact

Creating solutions for all
and elevating equal as
equitable

What It Is

Policy to address wealth gaps of
prospective talents and how it
may hinder decision-making

Acknowledging and then
addressing the SEL or
whole-adult perspective
experience

Collaboration with stakeholders
outside of the district such as
certifying agencies and etc.

.....

Partnerships

.....

Programs

.....

Providers

5

Communication

*How do you communicate
your commitment to
supporting diverse
employees throughout the
hiring experience?*

What It Is Not

Waiting for candidates to ask about supports

Sharing blanket information about support provided to all employees

One-time touch-point

What It Is

Taking initiative to communicate support offerings

Affinity-specific supports and experiences that candidates can relate to

Multiple touch points with underrepresented applicants

.....
**Affinity
Groups**

.....
**Mentorship
Programs**

.....
**Informational
Interviews**

What are we working on now?
