WHAT IS PSYCHOLOGICAL SAFETY

HOW DO YOU BUILD PSYCHOLOGICAL SAFETY

How do you build psychological safety?

WHAT IS PSYCHOLOGICAL SAFETY

- A shared belief held by members of a team that the team is safe for interpersonal risk taking
- Whether or not a particular work context was one in which people felt they could speak up, ask for help, offer an idea
- Trust

What else did you hear?

IN A LOW TRUST ENVIRONMENT

No one wants to look...

IGNORANT

And they avoid this by...

Not asking questions

INCOMPETENT

Not admitting weakness or mistakes

INTRUSIVE

Not offering ideas

NEGATIVE

Not challenging the status quo

IN A HIGH TRUST ENVIRONMENT

Psychological safety is strong...

Individuals and teams trust that they will **not** be punished or humiliated for speaking up with ideas, questions, concerns, or mistakes

So leaders model, normalize, and value...

Asking questions

Admitting weakness or mistakes

Offering ideas

Challenging the status quo

WHAT DO YOU NEED TO DO SO YOU CAN...

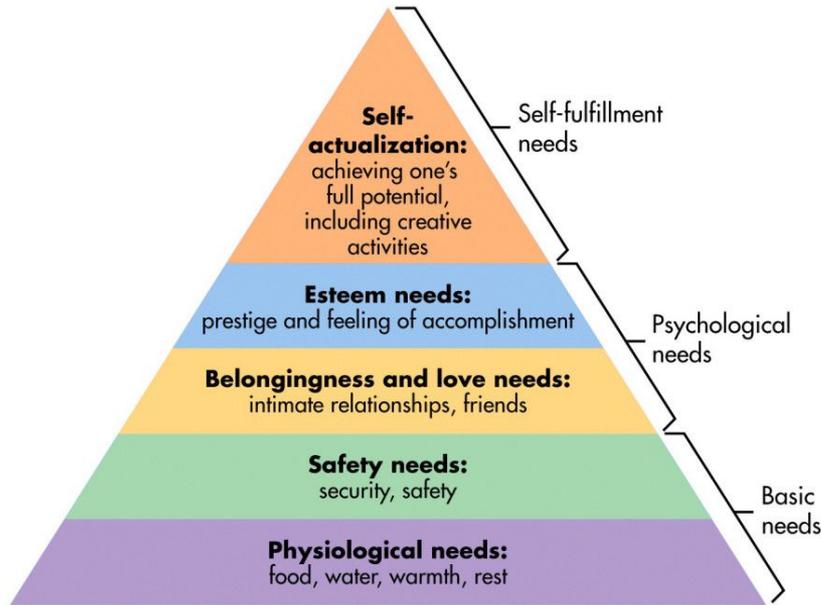

- Be present
- Tap into genuine empathy
- Engage with others from a place of calm

This collage illustrates the overwhelming amount of information and resources available during the COVID-19 pandemic. It includes:

- COVID-19 Information:** A CDC infographic titled "CORONAVIRUS DISEASE 2019 (COVID-19)" detailing symptoms and safety measures.
- SEL Resources:** A table titled "SEL RESOURCES DURING COVID-19" listing activities and times.
- Social Media:** A "Daily School Updates" bar with icons for Facebook, Twitter, Instagram, and YouTube.
- Educational Tools:** Logos for G Classroom, Canvas LMS, Lexia Core5, DreamBox, and BrainPOP.
- Communication:** A cartoon character holding a phone with notification bubbles for 57 and 82 messages.
- Meeting Preparation:** An icon labeled "Preparing for an Online Meeting" showing a person at a computer.

HOW CAN WE BUILD IT?

WHAT MAKES A TEAM EFFECTIVE

“Who is on a team matters less than how the team members interact, structure their work, and view their contributions.”

GUIDING PRINCIPLES

Individuals

What does building psychological safety look like with each individual on my team? How might I differentiate my approach to support their needs and foster our 1:1 relationship?

Teams

What does building psychological safety look like for teams? How might our teams use this time to strengthen the systems + habits of their work?

Developing Others

How will I support other leaders to build psychological safety with the teams they lead or support? How will I help teachers build this remotely with students?

1 CHECK-IN

What is the emotional status of the group?

Build connections while physically distant.

Top 3 for Emotional Pulse:

- How are you feeling, and what's your energy level?
- What challenges are you facing? What wins (big or small) did you have this week?
- What skill would you like to develop or improve?

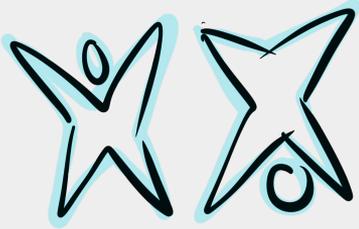

Top 3 for Shifting from COVID-19:

- If you could only eat one thing forever, what would it be?
- Show a picture that brings you joy.
- What are you reading, watching, or listening to that's awesome?

2 VIDEO ON!

How can we connect with our team (and students, families, community) while physically distant?

- Schedule calls using Zoom or Skype
- Let participants know ahead of time that we'll all use our video
- Connect!
 - Read facial expressions
 - Call on team members who look like they have a question or have been quiet
 - Learn more about team members' home work space

3 PLAN TO LEAD

How do you plan your meetings to lead to success?

Source: *The Wiseman Group*, Read more [here](#)

Be intentional about your team's remote work by focusing on these four conditions:

Context, Clarity, Co-Creation, + Connection

Context:

- Show the big picture
- Explain the “why”

Clarity:

- Define ownership
- Clarify what “great” work looks like, what does “done” look like, what *aren't* we doing

Co-Creation:

- Hold space to collaborate!

Connection:

- Check-In
- Celebrate

4 SCHEDULE UPDATES

When will your team hear more information?

What do they do if they have questions?

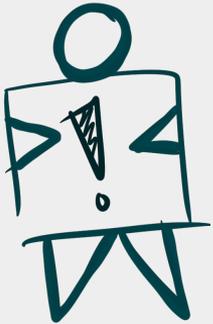

In times of uncertainty, information and plans change quickly. Clarity and transparency help your team feel safe + in the know.

- Schedule regular updates: consider 2x/wk
- Use various communication methods
 - One in writing (email)
 - One face-to-face (video call)
- Share update, even if it's that there is no update or change
- Provide space for team to ask questions
 - Anonymous feedback form
- What tweaks do we need to make transitioning to virtual work?

5 ADMIT LEARNINGS

How might you model for your teams the idea of “failing forward” or iteration?

What examples are you setting for how your team will try new things?

- Share the things you’re working on and/or working through
- Be clear about where it’s “Safe enough to Try” or “OK to Fail”
- Model trying new things; talk through what you’re trying and what you’re hoping to learn
- Balance this and confidence in your as a leader

PSYCHOLOGICAL SAFETY MATTERS ACROSS TEAMS

Teachers	School Leaders	District Leaders	All
Demonstrates care for students as people	Take an interest in the development of those you are leading	Share stories of mistakes you've made as a leader	Model vulnerability
Notice what students are doing well	Models making and learning from mistakes	Support the career trajectory of those you lead	Models making and learning from mistakes
Make time to check in with students emotionally	Circle back with people about ideas they've raised in the past	Ensure that each person has "equal" talk time during meetings	Check in at the beginning of each meeting
Add personal connections to content with video, images, or sound	Make time to check in individually with staff members	Have methods to process	Practice active listening by making eye contact and staying present

JUST FOR FUN!

Plan “Spirit Days” for internal calls

Do a team book study; we just read *Rituals for Work*

End team meetings with shout-outs

Team shares photos and stories of family + pets

Host virtual Happy Hours or trivia nights with team

Create a space for caregivers + parents to collaborate

Team shares pictures of remote workspace
